

# VIRGO

## #Original glass with double wall

The Virgo glass, thanks to the special structure made of a double layer of glass, not only maintains the right temperature of the drink for longer, but also protects against burns. No worries, you can hold it in your hand even when you drink hot coffee or tea.

**Parameters:** Capacity: 80 / 220 / 300 ml  
Height: 62 / 87 / 120 mm  
Diameter: 60 / 81 / 80 mm

## #Surprises with an amazing effect

The Virgo model has an ergonomic shape that prevents it from slipping out of your hand, and the double-walled glass gives an amazing effect of suspending the drink inside.

## #Now your favorite coffee in three sizes

In the larger one you will serve a creamy latte, and the smallest will be perfect for a strong and aromatic espresso. In addition, each of them has a wide range of decorations: choose an original print or a noble engraving effect and emphasize the values of the promoted brand.
